Cajun Stud is a five-card Poker game that lets you bet up to 10 units on a single hand. In Cajun Stud, you compete against a pay table, not against the dealer, and you win if your hand is a pair of Jacks or better (pairs 6-10s push). The top payout is 500-to-1 for a Royal Flush and it pays on all bets.

## How to Play

You make an Ante bet to receive two hole cards. Upon reviewing your two hole cards, you may Raise or Fold. If you Raise, you may Raise 1, 2 or 3 times your Ante bet. The dealer then reveals the third card in the community board. You may now fold or raise one to three times on the 4th card betting spot. The dealer reveals a 4th card on the community board to improve your hand. Finally, you may fold or raise your hand one to three times on the 5th card spot. The dealer reveals the 5th and final card. A pair of 6-10s push and a pair of Jacks or better wins according to the posted payable.

## Board Bonus

Make this bet to win if the three community cards consist of one Pair or better. See posted paytables for payouts.

## Pocket Bonus
